EXTERIOR WALL SUBJECT TO INSPECTION

Critical examination: close-up examination at a minimum of one (1) drop along each public way spanning not less than 24 feet. Light courts may also require close-up examination depending on configuration and ingress/egress. Visual survey of the remaining facade portions from afar is acceptable unless close-up inspections are recommended by a professional.

Ongoing Inspection and Repair Program: Visual survey of the all facades from afar is acceptable unless close-up inspections are recommended by a professional.

METHOD OF INSPECTION

For critical examination: hands-on, close-up inspection shall be performed where required. For on-going inspections, visual surveys from afar are acceptable unless close-up inspections are recommended by a professional. Substrate inspection may also be required depending on material and building age.

FINES FOR NON-COMPLIANCE

Minimum \$1,000/day

Maximum \$2,500/day
