Allison Sullivan, asullivan@cityofchicago.org

NUMBER OF BUILDINGS AFFECTED

2,000

FREQUENCY AND DUE DATE OF REPORTS

Critical exam required every 4, 8, or 12 years depending on building classification and ongoing inspection at midway point of critical exam cycle **-or-** under the October 22, 2009 Rules and Regulations, owners of occupied buildings, regardless of building category, may choose to file Ongoing Inspection and Repair Program ("Short Form") reports every second year and not file Critical Examination Program reports at category mandated frequencies, provided that all of the following conditions are met:

- There is a Critical Examination Program report on file that has been accepted by the Department of Buildings (new buildings may enter the "Short Form" program without a Critical Examination Program report on file)
- The most recently filed report, either Critical Examination Program report or Ongoing Inspection and Repair Program report, classified the building as "safe" or "safe with a repair and maintenance program"
- Owners notify the Department of Buildings in writing of their intent to file only Short Form reports

WHICH BUILDINGS ARE SUBJECT TO COMPLIANCE?

All buildings 80 feet or more in height.

ACCEPTABLE INSPECTORS

Illinois licensed architects and structural engineers or personnel under their direct supervision.

EXTERIOR WALLS SUBJECT TO INSPECTION

Critical examination: close-up examination at a minimum of one (1) drop along each public way spanning not less than 24 feet. Light courts may also require close-up examination depending on configuration and ingress/egress. Visual survey of the remaining facade portions from afar is acceptable unless close-up inspections are recommended by a professional.

Ongoing Inspection and Repair Program: Visual survey of the all facades from afar is acceptable unless close-up inspections are recommended by a professional.

METHOD OF INSPECTION

For critical examination: hands-on, close-up inspection shall be performed where required. For on-going inspections, visual surveys from afar are acceptable unless close-up inspections are recommended by a professional. Substrate inspection may also be required depending on material and building age.

FINES FOR NON-COMPLIANCE

Minimum \$1,000/day

Maximum \$2,500/day
